**Application No.:** 10/596,991  
**Examiner:** Peter R. Egloff  
**Art Unit:** 3715  
**Applicant:** Palacios, Angel

**Description of phone interview carried out on July 30, 2009**

A phone interview was requested by the Applicant and kindly accepted and conducted by examiners Ms. Kathleen Mosser and Mr. Peter Egloff.

The Applicant explained that the claims had been amended in order to most clearly show the newness and nonobviousness of the invention.

It was agreed that the new claims overcame the previous objections regarding Cox (US Patent No. 5,336,093).

The Examiners kindly explained the objections based on 35 USC 101 and the new Case Law behind it.

The Examiners also explained the correct manner of amending the Specification.

Signed by Angel Palacios
